

Kidnap & Ransom

Peace of mind delivered through prevention training and response

In many countries employees of international organisations are attractive targets to kidnapers due to the high profile and perceived wealth of the company they work for.

The impact of a kidnap can be enormous. It is extremely traumatic for those involved and dealing with an incident can lead to significant losses from ransom payments, business interruption, litigation, adverse publicity and long-term damage to reputation.

Every corporation with global operations should consider protecting themselves and their staff against the risk of kidnap, extortion, detention and hijack.

We make client confidentiality an utmost priority and operate a strict policy of non-disclosure of client details.

Risk management

We offer three types of insurance policy*:

- **Corporate protection:** most frequently covers all directors, officers and employees. Cover can apply to named people only if requested. All family members of covered persons are automatically included.
- **Family protection:** cover designed for private individuals, which is issued on a named person basis.
- **Marine piracy protection:** cover designed for ship owners, managers and charterers with vessels trading or transiting the Gulf of Aden, Indian Ocean areas where Somali piracy is endemic.

All policies comprise three vital elements

- **Prevention:** we provide comprehensive Personal Security and Corporate Crisis Management guidelines. On a case-by-case basis we can also negotiate a consultancy allowance with underwriters, to help reduce exposure to the risk.
- **Financial reimbursement** of costs associated with an insured event, up to the policy limit.
- **Guaranteed and immediate access** to specialist response consultants who advise on the complex and sensitive issues that need to be addressed in order to obtain the safe release of the victim. The fees and expenses of the response consultants are unlimited following an insured incident.

Covered incidents

- Extortion
- Wrongful or illegal detention
- Hijack

The policy reimburses

- Legal expenses (corporate cover only) - 100% of the policy limit

It is also possible for corporate cover to be extended by endorsement to include:

Additional benefits

The following benefits are available free of charge to all policy holders:

It includes information on the phases of a kidnap, necessary immediate actions, the negotiation process, communications strategy, how to manage the victim's family, media and other interested parties.

It contains advice on basic personal security measures, security at home, at work and on the move - to help individuals protect themselves from all forms of criminal attack. It also provides detailed lists of 'dos and don'ts' to follow in the event of a kidnap, carjacking, hostage taking or similar incident, providing advice and tips on safety and security whilst traveling abroad.
